Hippocrates' quote **Let Thy Food Be Thy Medicine** in our time is mirrored by the World Health Organisation (WHO) actively promoting the increased consumption of fruit and vegetables (5-A-Day campaign):

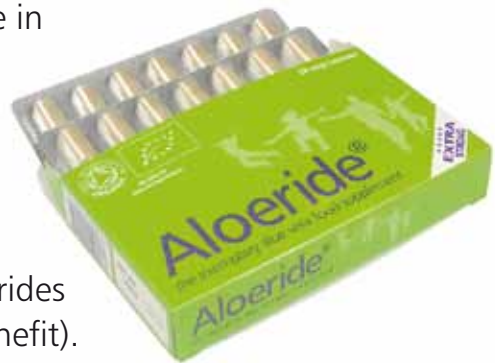

"The WHO works across the entire spectrum of nutritional health problems, from malnutrition to obesity. As well as helping prevent chronic noncommunicable diseases (NCDs) such as cardiovascular diseases, diabetes and some cancers, adequate fruit and vegetable intake also helps reduce nutritional deficiencies and increases resistance to infectious diseases."

Beyond fruit and vegetables one other miraculous food substance is aloe vera, the very best of which is captured in **Aloeride® Extra Strong.**

The miracle of food is in the synchronicity of the many nutrients inside it, be that in raw spinach, in apple, ginger, lentils, berries or aloe vera. The benefit of food never happens because of one type of molecule.

Good aloe vera is known to contain some 300 different types of molecules. Transforming these into a Rolls Royce amongst food supplements is difficult and unavoidably costly. We strive for perfection and give you the best of what aloe vera has to offer.

**Aloeride® Extra Strong** is unique in giving you 1. the fullest spectrum of aloe vera *barbadensis miller* nutrients (minus the laxative anthraquinones) with 2. an exemplary quantity of each of the different size beta-linked polysaccharides (every such group has a different benefit).

One old chestnut of misconception is to believe that aloe vera juice is best. That's like believing that water in tomato soup qualifies the tomato soup! Yet in reality the solids in the soup do the magic. At the end of the day it is independent laboratory results that prove the quality of an aloe vera product. In such tests Aloeride® powder (aloe solids) wins hands down time after time. With Aloeride® Extra Strong you get **the very best that is within aloe vera**, all you do is add good water.

- ✓ The 28 vegicapsules in 1 pack of Aloeride® Extra Strong equal **2.4 litres** of its original aloe vera juice.
- ✓ Our vegicapsules are **very easy** to ingest for adults and children alike, perfect for vegetarian, vegan and all religious considerations. Vegicapsules can be opened easily should one prefer to use our powder only.

- ✓ Aloeride® Extra Strong contains 44.93x more molecules to support your immune system and 25.65x more molecules to support your body in dealing with inflammation (as compared to a pyramid selling aloe vera drink and *much more still* as compared to many other aloe vera supplements we had tested).
- ✓ Aloeride® Extra Strong is taste-free which is another huge advantage over all liquid aloe vera products.
- ✓ There is no known allergy to the liliaceae family, of which aloe vera is one, and there are no known drug interactions. It is generally regarded as safe and is more so still as we have removed aloe's laxative molecules.
- ✓ Aloeride® Extra Strong gives you the best value for money (even before our multipack discounts).
