Vcaps® Plus & Vcaps® Capsules

Vcaps® Plus and Vcaps® capsules are two-piece capsules formulated with HPMC (Hydroxypropyl Methylcellulose), that satisfy vegetarian and cultural needs and offer the following benefits:

- An attractive, all natural dosage form that retains all the advantages of standard two-piece capsules: easy to swallow, effectively mask taste and odor, and allow product visibility.
- Starch-free, gluten-free and preservative-free, and meet the strict dietary needs of customers that choose a vegetarian lifestyle.
- Kosher and Halal certified.
- Run smoothly on all high-speed and semi-automatic filling machines.
- Vcaps Plus capsules are also ideally suited for low-moisture compounds, and offer the same luster as gelatin capsules.

As with all Capsugel products, you can be assured of the highest quality product and technical service. Vcaps vegetable capsules are manufactured in a GMP facility that meets ISO 9000 certification criteria. Computerized process control stations monitor key manufacturing process parameters, and a certificate of analysis is included in every production batch.
