

Each carton is made from **12 litres** of aloe vera. Each of the **30 sachets** contains a minimum of 2,000mg of pure Soil Association Certified Organic aloe vera barbadensis miller powder and equates to a minimum of 400 millilitres of original juice.

The most nutrient-dense species of aloe vera, organically grown, processed as co-designed by the world expert on aloe vera Dr. Ivan Danhof MD PhD, unrivalled quality control, dosage calculated properly for the average weight of an adult horse.

Aloeride provides 7 out of the 8 dietary essential amino acids (Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Valine, there's no consensus on Tryptophan yet).

Aloeride provides 12 dietary non-essential amino acids (Alanine, Arginine, Asparagine, Cysteine, Glutamic Acid, Glycine, Histidine, Proline, Serine, Tyrosine, Glutamine, Aspartic Acid).

Aloeride provides vitamin B1, B2, B3, (indirectly B5), B6, B9, B12 and vitamin A and C.

Aloeride provides the inorganic minerals Calcium, Magnesium, Potassium, Sodium, Zinc, Iron, Phosphorus, Manganese, Molybdenum, Copper, Boron and Chromium.

Aloeride provides beneficial nutrients unique to aloe vera (e.g. the β [1-4] linked glucomannan polysaccharides) that cannot be gained from either feed or grazing.

Next to all these nutrients, Aloeride firmly supports digestive health & function and the uptake of dietary nutrient in your feed mix.
